**Annex 1**

**Country Coordinating Mechanism (CCM) Thailand**

**Terms of Reference: National Consultant to Support CCM Positioning**

<p>Overview</p>	<p>The Country Coordinating Mechanism is a core to the Global Fund's contribution to health governance to help end HIV, tuberculosis and malaria while investing in resilient and sustainable systems for health. The CCM Evolution Strategic Initiative is a catalytic opportunity to enhance the way our partnership works in countries and regions. The approach and methodology build from a pilot phase in 2018-2019.</p> <p>The Global Fund's Country Coordinating Mechanism (CCM) Policy outlines that the CCM should be positioned at the highest level responsible for multi-partner and multi-sectorial development planning in a country. The Global Fund encourages all countries to build on their national structures, wherever possible, and to position the CCM and/or CCM functions within existing health platforms to contribute to central coordination of health programs, investments and pandemic preparedness.</p>	
<p>Scope of Work</p>	<p>The national consultant will identify existing national health structures, governance mechanisms and platforms responsible for coordinating the health sector and disease-specific issues. For the transition context, this should have an additional focus on key national stakeholders that are most appropriate for strengthening transition planning, preparedness, implementation, and overall efforts to strengthen sustainability. The consultant will map each identified platform's position within the national systems and in relation to the CCM. The consultant will also support the CCM in developing a "Positioning Plan" based on three main phases: knowledge, coordination, and sustainable structure.</p>	
<p>Key Performance Metrics</p>	<p><b>Task</b></p>	<p><b>Metric</b></p>
	<p>Understand and become familiar with the principle of Positioning.  For the transition context, understand the transition lens and how it fits within positioning.</p>	<p>Positioning e-Learning module and review of "Positioning Guidance Note".</p>
